Why become a TMMi® TEST PROCESS IMPROVER ?

- **Do you lead test process improvement projects?**
- **Are you providing test improvement consultancy?**
- **Do you want your skills to be acknowledged?**

What is a certified TMMi® Test Process Improver?

- …organizations seeking to improve their level of test maturity depend on experienced and qualified individuals to effectively assess and facilitate test improvement.

- ….a certified TMMi Test Process Improver will be able to provide effective support to initiate, implement and support TMMi based improvements to testing and deliver business value to sponsors and stakeholders

- …this qualification is intended to support career path development and create visibility for leaders involved in TMMi-based test process improvement.

Benefits

- By having employees that hold the TMMi Test Process Improver certificate, an organization can show to their **stakeholders** and the **market** that they have the expertise to perform TMMi based test improvement activities successfully

- Being a TMMi test process improver is a **career step** for those involved in test consultancy and test process improvement.

- Use the **associated logo**, e.g., as an email signature, to show the achievement to stakeholders and the market

- Be listed on the public register available for certified TMMi Test Process Improvers on the **TMMi website**

ISTQB® International Software Testing Qualifications Board

TMMi and the ISTQB have entered an alliance to further promote the Software Testing profession together. The alliance brings together the people and process aspects of a test improvement program. Applying the two most important test certification schemes in conjunction strengthens the benefits for organizations and individual professionals.

TMMi® is a registered trademark of the TMMi Foundation (UK).
