

Global & Local Chapter News!

- The Brazilian TMMi Local Chapter is currently translating everything required to launch the TMMi initiative, available soon in Brazilian Portuguese. Meanwhile the TMMi model description has already been translated. Next up “TMMi and Agile”.
- The Polish TMMi Local Chapter has run their first TMMi Professional exams after a course offered by AmberTeam Testing Sp. z.o.o.
- Experiments of United Kingdom offered the 1st ever TMMi Professional course to 13 participants in Manila, Philippines.

Discover your TMMi Journey:

Our TMMi career path shows how a test professional can progress in their career and ultimately become a TMMi Lead Assessor or a Certified TMMi Test Process Improver.

TMMi[®] Career Path

Welcome Paul Mowat to the TMMi Management Executive:

Welcome Paul Mowat!

I got the chance to meet up with the TMMi Management exec team back in August in Amsterdam. It was a productive day discussing the future roadmap for the TMMi career path and I'm excited by what's planned.

I'm a Director at Deloitte with twenty years delivery experience across the full software delivery lifecycle specialising in helping organisations to optimise their Software Testing Engineering capability and delivery through consultative collaboration, transformation and improvement initiatives.

We continue to see demand for individuals taking the examination for TMMi Professional and new training providers offering that exam. A new TMMi Professional sample paper has been established and can be accessed on the website.
